What is this product?

Type

This is an investment fund established as a Company With Variable Capital (SICAV).

Objectives

Investment objective The objective of the Sub-Fund PARETURN VARIANZA CERVINO WORLD INVESTMENTS is to provide investors with long-term capital appreciation through realized gains, as well as income. In order to achieve the investment objective, the Sub-Fund will invest principally in global equities.

Investment policies The proportion of the Sub-Fund invested in global equities may vary widely (down to a minimum of 40%), depending on the market risk exposure from time to time. In order to manage such market risk, the proportion invested in global equities might be reduced in favour of investments in deposits, money market instruments, transferable securities producing a fixed income, or other collective investment undertakings (including UCITS).

The Sub-Fund will invest in transferable securities listed or traded in recognized markets primarily of member states of the OECD. The Sub-Fund will primarily invest in mid to large capitalisation companies (that is companies with a market capitalisation exceeding EUR 1,000 million at the time of investment) that the Delegate Investment Manager considers are going to pay growing and sustainable dividends and whose real value is substantially superior to the existing market valuation, according to the Delegate Investment Manager's criteria. The Sub-Fund will normally invest in the transferable securities of between 40 and 70 companies.

Investments in equities will generally be made with an intention that they should be held for more than three years, although the relationship between price and value will always be the principal deciding factor for the duration of any given investment and so on some occasions investments may be held for shorter periods.

The Sub-Fund may invest no more than 10% of its net assets in UCITS and other UCIs, which in turn do not invest more than 10% of their net assets in UCITS and other UCIs, harmonised or otherwise, on the condition that they are subject to similar regulations and legislation governing UCIs. Other than that, the geographical distribution of the Sub-Fund's net assets may vary at the manager's discretion, so there will be no regional or sector limits.

The Sub-Fund may invest up to 20% in all types of contingent convertible bonds (CoCos) and up to 20% in convertible bonds.

The Sub-Fund may deal in foreign exchange transactions for hedging as well as non-hedging purposes.

The Sub-Fund may enter into derivatives (including OTC derivatives) for hedging and investment purposes, in compliance with current legislation for UCITS.

The Sub-Fund will not exceed the general limits for the use of financial derivative instruments for reasons of market and counterparty risk set out in current legislation for UCITS.

The Sub-Fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR (ESG Sub-Fund). The Sub-Fund has the following E/S characteristics: it aims to target companies that have in place strategies that

aim at improving their overall environmental footprint, respect for human rights, and exposure to global ESG enhancement. In particular, the Sub-Fund contributes to global ESG enhancement seeking to provide exposure to companies that either:

- Already have policies that contribute to climate transition or
- Aim to reduce their environmental impact. It may also invest in companies that are ESG improvers and have the potential to generate positive social impact through a better management of ESG issues.

Benchmark The Sub-Fund is actively managed and pursues a long term performance goal of EURIBOR index+6%. This benchmark is not used in any way to determine or restrict the portfolio holdings of the sub-fund or as an investment universe, and the sub-fund is not constrained by any internal or external risk indicator that refers to any benchmark.

Redemption and Dealing Subscription/Conversion lists are closed at 16.00 pm at the latest one day before each Valuation Day. The payment of redemption, subscriptions and conversions shall be made in the reference currency of the Sub-Fund, category or class of shares within three (3) business days following the Valuation Day.

Distribution Policy Income arising from the Sub-Fund will be reinvested.

Launch Date The Sub-Fund was launched on 10/03/2014. This Share class was launched on 07/03/2014.

Sub-Fund Currency The reference currency of the sub-fund is EUR.

Switching between Funds Shareholders may request at any time the conversion of all or part of their holdings into shares of another Sub-Fund, category and/or class of shares. There are no conversion fees. For more details on how to exercise that right refer to the Fund's prospectus.

Intended retail investor

What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

■ 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 3 years (recommended holding period)
Total Costs	158 EUR	549 EUR
Annual cost impact*	1.6%	1.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.2% before costs and 4.6% after costs.
